The following is a list of recorded recitals and concerts by the late maestro that are in my collection and all others I am aware of. It is mostly indebted to Alex Malow who has been very helpful in sharing with me his extensive knowledge of recorded material and his website for video items at <http://www.therichteracolyte.org/> contain more detailed information than this list.. I also hope for this list to get more accurate and complete as I hear from other collectors of one of the greatest pianists of our era. Since a discography by Paul Geffen <http://www.trovar.com/str/> is already available on the net for multiple commercial issues of the same performances, I have only listed for all such cases one format of issue of the best versions of what I happened to have or would be happy to have. Thus the main aim of the list is towards items that have not been generally available along with their dates and locations. Details of Richter CDs and DVDs issued by DOREMI are at <http://www.doremi.com/richter.html> .
